VTA

Supply And Plant Hire

# INTRODUCTION

VTA Supply and Plant Hire is a multi-disciplinary business in South Africa. The company focuses on skills development and promoting gender equality within the Southern African economy. VTA Supply and Plant Hire is mandated to create civil solutions. It is also dedicated to cost effective, high performance purpose-built systems that deploy quickly and effortlessly. Our systems are tasked to bring together an extensive, yet cost-effective, suite of project management and catering to create the very best in a managed service offering.

The goal of our company is to place high priority on continuously strengthening and improving our expertise and technological skills and resources across a wide range of engineering and management activities in order to address specific project related needs.

## HEALTH & SAFETY

It is our intent to adhere to the requirements of the occupational, health and safety act 85 of 1993, therefore the company always ensures the concept of zero harm to the operating site and the surroundings. In all our projects safety issues are prioritized and this is realized through awareness, discipline and sustainability.

### **We ensure overall safety through the following:**

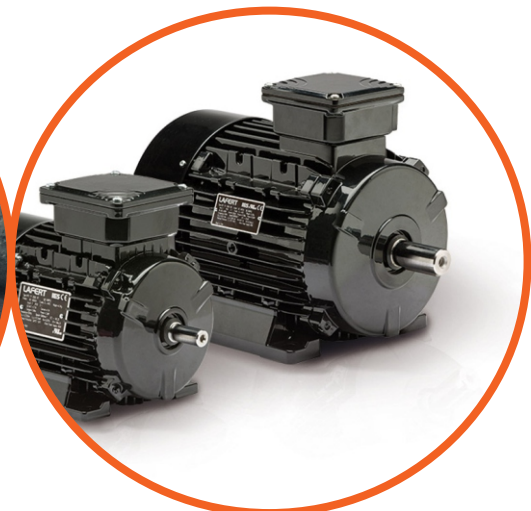

- Constant supervision on each and every project
  - Adopting safe working procedures
  - Staff go through generic induction, relevant site induction , medical examinations and training as required by the clients before commencement of work
- Workforce issued with necessary protective equipment
  - PPE regularly inspected for defects
  - All hand tools, power tools and training equipment inspected and registered for safety
  - Supervisory checklist for each site
- Adopt zero tolerance for intoxication in the workplace
- A holistic approach in which all stakeholders participate in safety issues.

## PRIMARY OBJECTIVES

- To increase our marketing spheres to national level.
- To improve relative product quality index.
- Evaluate and initiate development of promising new calling
- Engaging in joint ventures with other major players in the vicinity and troubleshooting emanating matters of relevance.
- To provide services of the greatest possible value to our customers, thereby gaining and holding their respect and loyalty
- To provide service and product quality competitively
- To be a market leader in our chosen services in Mpumalanga and expanding to the entire country
- To satisfy our customer / client needs within the resources and abilities of our business.
- To foster initiative and creativity by allowing the individual greater freedom of action in improving the well-defined objectives. This means that after receiving an opportunity to provide the services, each individual client should be given a wide degree of freedom to have their input for the service improvement.
- To help employees share in the company's success which they make possible.
